2	Phase 2 AT&T ESInet™ Services, 9-1-1 call routing, GIS, and LNG services
3	Integration of Secondary Military PSAPs

4	Unmanned Back-up PSAP Monthly Service Fee
5	Tier 3 (5-9 Pos) Provide web-based data analytic reports displaying emergency call information metrics, including: ongoing support, helpdesk, maintenance and management

6. CERTIFICATION BY CONTRACTING OFFICER:

I have reviewed the above findings and certify that they are sufficient to justify the use of the sole source method of procurement under the cited authority. I recommend that the Chief Procurement Officer approve the use of the sole source procurement method for this proposed contract.

DETERMINATION

Based on the above findings and in accordance with the cited authority, I hereby determine that it is not feasible or practical to invoke the competitive solicitation process under either Section 402 or 403 of the District of Columbia Procurement Practices Reform Act of 2010 (D.C. Law 18-371; D.C. Official Code § 2-354.02 or 2-354.03). Accordingly, I determine that the District is justified in using the sole source method of procurement.
